

## Parent's Testimonials

There is a way with special with children needs that we feel David Asher and Jejoy have mastered, with a special kind of love and affection towards them. The concentration and attention with eye contact that our kid Reuel displays while David Asher plays the keyboard is unparalleled to any of the therapists we have attended so far. Reuel attends bongo and singing classes at The Music Tent.

- Anand & Blessy (Parents of Reuel Jasper)

My son Ranvijay is a child with special needs and for the last few months, he has been learning keyboard from David Sir and bongo from Jejoy Madam. **Ranvijay always enjoys the classes because of the way they are teaching and taking care of him.** I certainly recommend their classes to everyone. Thank you.

- Partha Paul (Chartered Accountant)

My son Manan loves David Sir's and Jejoy Ma'am's classes. He is learning the bongo and singing at The Music Tent. **Both of them are very loving and caring towards children with special needs. The classes have helped reduce his anxiety and his focus has improved in all the activities.** He is having such a good time at The Music Tent that he doesn't want the class to get over.

- Pratiksha (Mother of Manan)

The Music Tent has been conducting music classes for children above 4 years for the last 16 years. For the last 5 years, it has been an inclusive music school catering to children with special needs by teaching them music.

## WHY WE STARTED?

The idea of starting an inclusive music school evolved/ originated from a personal experience of our associate director whose brother was diagnosed with Learning Disability . This life changing situation persuaded her to pursue her master's in clinical psychology and she has been working with children who have special needs for the past 7 years.

## WHY MUSICAL EDUCATION?

Studies have shown that learning to play a **musical instrument helps to promote brain development and also facilitates skill acquisition.** At our Music school, we teach Piano, Bongo, Cabasa and Vocals. In brief, they contribute in increasing attention span, memory and other cognitive factors such as timing and rhythm.

### PIANO:

- Helps in strengthening gross and fine motor skills
- Helps improve attention span
- Facilitates better eye hand coordination

### BONGO:

- Helps with better eye-hand coordination
- Improves attention span
- Increases sitting tolerance

### CABASA:

- Improves sensory and gross motor skills

### VOCALS:

- Helps promote relaxation
- Improves attention
- Encourages better vocalization
